THE 6TH JOINT WORKSHOP OF JAPAN-KOREA SOCIETY FOR INDUSTRY-ACADEMIA COLLABORATION

Theme: “The Study and Trend of The Innovation with Industry-Academia Collaboration in Each Country, Korea and Japan”

Background and Purpose

The Japan Society for Intellectual Production has concluded a collaboration agreement with the Korean Society for Industry-Academia Cooperation and has held five workshops for Japan-Korea comparative research in both countries.

In March of this year, a pre-workshop was held from Yonezawa City, Yamagata Prefecture, using a corona environmentally friendly hybrid, but due to strong demand for a workshop to be held in person rather than remotely, a full-scale workshop will be held as follows. We expect to exchange knowledge that only a face-to-face meeting can provide, such as enthusiasm and differences in international industry-academia collaboration, which are difficult to convey remotely.
